## King-Wool's Nuptials.

A beautiful wedding was solemnized at the home of Mrs. Ella Woolis Tuesday afternoon, June 5, when her daughter, Jennie, became the bride of Horace King. The large back porch was prettily decorated with pot plants, carrying out a color scheme of white and green.

At the stroke of six the bridal couple descended to the strains of Mendelssohn's Wedding March played by Miss Eva Hutzler, marching across the hall they met in front of Rev. T. G. Woolis, grandfather of the bride, who immediately pronounced the words making them man and wife.

The bride was becomingly gowned in light tan chiffon taffeta with accessories to match and carried a bouquet of white carnations and ferns. She carried the handkerchief used by her mother, Laurie, when she graduated. After the ceremony punch was served to the guests, who were relatives of the bride and groom.

Misses Lora King and Florence Lacy acted as the punch bowl.

They were the recipients of many beautiful gifts in silver, cut glass, painted china, etc.

The happy couple left in an Overland Roadster for a trip to San Antonio and points east amid showers of good wishes.

After a brief honeymoon Mr. and Mrs. King will be "at home" to their friends at the home of H. F. King.

Among the out-of-town guests were: Mr. T. G. Woolis of Cotulla; Mrs. Jennie King, Abbie and Hassel King, the Noonan, grandmother of the groom. Mrs. Will Noonan and Miss L. Noonan, all of San Antonio.

Dr. W. H. Smith made a business call to D'Hanis Thursday.

## Schmidt-Eichhorn.

Married, at the Catholic Rectory, Hondo, Texas, Monday, June 4, 1917, Mr. Martin Schmidt and Miss Ella Eichhorn, Rev. Fr. Francis Pallanche, pastor of the Hondo Catholic Church, officiating.

The groom is the son of Mr. and Mrs. Peter Schmidt, while the bride is the comely daughter of Mr. and Mrs. Gus. Eichhorn, both of the Birv section, and have a large circle of friends who extend to the happy young couple congratulations and best wishes for a long, happy and prosperous married life.

The attendants were Miss Rosa Schmidt of Devine, and Mr. Walter Eichhorn, brother of the bride.

May the fondest hopes of the newly wedded couple for a happy married life be more than realized is the wish of the Anvil Herald.

## Jurney-Hancock.

A pretty wedding was solemnized last Saturday, June 2nd, when Mr. H. B. Jurney and Miss Lillian Belle Hancock were united in marriage at the home of the bride's parents, Mr. and Mrs. William Hancock. Rev. J. W. Long of the Methodist Church performed the ceremony in the presence of the immediate family.

The bride was attired in a gown fashioned along simple lines of white marquisette and lace. Immediately after the ceremony a reception was held for the family when a dainty wedding dinner was served.

Mrs. Jurney wore a going away gown of apple-gown taffeta with white hat and shoes. They will be at home to their many friends at 1618 N. Palmetto St., San Antonio, Texas.

Dr. and Mrs. J. M. McLeese visited relatives in D'Hanis Wednesday.

## Shower Party.

Thursday afternoon, May 31, Miss Willie Fly delightfully entertained with a shower, honoring Miss Jennie Woolis, a bride of the week. The room was tastefully decorated in yellow and white. When the guest of honor arrived she was escorted by Miss Fly to an especially decorated chair while Mrs. O. A. Fly played Mendelssohn's Wedding March. Miss Woolis had come only for a call; so the friends, the entertainment and above all, the pretty yellow parasol with the shower of hearts was a lovely surprise. A music program was enjoyed, after which all tried to see who could make the most words out of matrimony. Miss Fly passed around the bride's book in which each wrote a wish for the bride.

Delicious refreshments, consisting of sherbet and cakes were served. Pansies were the plate favors. About twenty-five enjoyed the afternoon and enjoyed seeing the many dainty as well as the useful gifts hidden in the parasol.

## Novelty Shower.

Miss Florence Wendland gave a novelty shower on Saturday night at the home of Mr. and Mrs. August Wendland, in honor of Miss Silvia Bihartz, a bride of this month.

The house was beautifully decorated with white crepe and ferns. In the center of the parlor was arranged the bride's chair and from overhead hung a large crepe wedding bell decorated with silver tinsel. The bride was led into the parlor where she was seated in the bride's chair, after which she received many beautiful and valuable presents. After the shower the guests were welcomed into the dining room which was artistically decorated with patriotic colors. Refreshments of lemonade and cake were served. Several hours of dancing was enjoyed by the young folks, after which they departed, reporting a very pleasant time.

## Marriage Licenses.

Neither drouths nor war times seems to deter Dan Cupid. Among others, marriage licenses have been issued to the following couples since the first of the month.

## HELP YOUR COUNTRY and Make Money for Yourself

Uncle Sam must have the money QUICKLY to build thousands of food and munition carrying ships, to raise, equip and maintain an army of 1,000,000 men; to give us a smashing big navy—in short, to enable our country to carry on its share of the great war for the FREEDOM OF THE WORLD

YOU can do YOUR part by lending the Government some of your savings. Invest now in one or more of the Liberty Loan Bonds. You will be helping yourself while you help your country. The bonds pay 3 1-2 per cent interest and are as good as gold. There is an easy payment plan. For example, if you want to buy one of the \$50 bonds, you can make your payments at this bank, as follows:

2 per cent when you buy the bond	\$ 1.00
18 per cent on June 23, 1917	9.00
20 per cent on July 30, 1917	10.00
30 per cent on August 15, 1917	15.00
30 per cent on August 30, 1917	15.00
TOTAL	\$50.00

The bonds will be dated June 15, 1917, and will run for 30 years, when the Government will repay the principal. Twice a year the owner will receive interest at the rate of 3 1-2 per cent a year.

# The Perambulating Showcase

By Herbert Kaufman.

The newspaper is a huge shop window, carried about the city and delivered daily into hundreds of thousands of homes, to be examined at the leisure of the reader. This shop window is unlike the actual plate glass showcase only in one respect—it makes display of descriptions instead of articles.

You have often been impressed by the difference between the decorations of two window-trimmers, each of whom employed the same materials for his work. The one drew your attention and held it by the grace and cleverness and art manifested in his display. The other realized so little of the possibilities in the materials placed at his disposal that unless some one called your attention to his bungling you would have gone on unconscious of its existence.

An advertiser must know that he gets his results in accordance with the skill exercised in preparing his verbal displays. He must make people stop and pause. His copy has to stand out.

He must not only make a show of things that are attractive to the eye but are attractive to the people's needs as well.

The window-trimmer must not make the mistake of thinking that the showiest stocks are the most salable. The advertiser must not make the mistake of thinking that the showiest words are the most clinching.

Windows are too few in number to be used with indiscretion. The good merchant puts those goods back of his plate glass which nine people out of ten will want after they have seen them.

The good advertiser tells about goods which nine readers out of ten will buy if they can be convinced.

Newspaper space itself is only the window, just as the showcase is but a frame for merchandise pictures. A window on a crowded street in the best neighborhood, where prosperous persons pass continually, is more desirable than one in a cheap, sparsely settled neighborhood. An advertisement in a newspaper with the most readers and the most prosperous ones possesses a great advantage over the same copy in a medium circulating among persons who possess less means. It would be foolish for a shop to build its windows in the alleyway—and just as much so to put its advertising into newspapers which are distributed among "alley-dwellers."

## WIRELESS TELEPHONE A REALITY AT LAST

Carmen De Rue and Violet Radcliff, Talented Young Members of the Majestic (Mutual) Juvenile Company, Using Wireless Phone.

Who says the "wireless" telephone isn't a reality? What better evidence is necessary to convince a skeptic than the accompanying photograph, depicting the "wireless" phone in use? True, the stretch of communication reaches only from the head of the calf to the tip of its tail, but the conversation, nevertheless, is carried on successfully without the use of a single wire. This "wireless" phone forms an interesting part of the theme of "The Runaways," an unusually clever photoplay, in which the Majestic (Mutual) juvenile players, who are producing a series of child plays, portray all the principal roles. Carmen De Rue and Violet Radcliff, two of the talented young members of the juvenile company, are shown in the photograph.

## WONDER OF INFANT

How One Ever Lives to Grow Up Puzzles the Married Man.

Baby Has as Many Hairbreadth Escapes Every Day as Heroine in Blood-Curdling Movie Drama.

The married man dropped on a park bench beside his bachelor friend, gasping for breath and wiping the cold perspiration from his forehead. He had just sprinted 50 yards to rescue a baby from the attack of a vicious mongrel which had attempted to snatch a cracker from him. Before he had reached the scene the baby had cracked the dog on the nose with a spoon and sent it howling out of the park.

"I never could figure out how babies ever live to grow up," he confessed, lighting a cigarette with hands that still shook. "The heroine of 'The Dangers of Daphne' and those other blood-curdling thrillers do not have more adventures to a reel than a baby has in a day. And yet I can't remember ever having seen a really damaged baby."

"They can chew everything from glassware to sofa cushions with every sign of satisfaction and contentment. Only rarely do they have to be thumped on the back or shaken upside down. Apparently they have the digestion of a stone crusher or a concrete mixer. They seem to get more nutriment out of a bedroom slipper or a newspaper than a regular human being could derive from a New England boiled dinner."

"They can crawl around among a roomful of people without ever getting stepped on and can pull a cat's tail with impunity. I have seen a baby climb out of a high chair or crib and fall more than its own height without apparent inconvenience. It doesn't matter whether it lands on head, back or side. A drop of the same sort would probably lay up an athlete for a couple of weeks at the least."

"Another thing about babies I can't understand is that they are apparently so tough or else impervious to pain. I have never yet seen a baby cry after any mishap unless somebody was looking at it."

"They can run full tilt into a chair and regard it as a huge joke. I have seen a baby who was tumbled over by the front wheel of an automobile get up chuckling and demanding more. A pair of twins I knew were fond of sitting together on the floor to bang each other amiably with building blocks."

"Of course if somebody picks up a baby after it has banged itself and sympathizes with it and rubs the hurt part it begins to realize something is wrong and yells, usually on the chance of getting a graham cracker or other delicacy."

"I am not denying that they cry a good deal, but I am convinced that they do it only on the theory that it pays to advertise. A baby will cry industriously for long periods for what it wants, but rarely wastes many tears because it has hurt itself."

"Some babies, older and more experienced in the ways of the world than others, will sneak a hasty look around the room after they have fallen down and bumped themselves, sum up their chances of getting either a bite to eat or a reproving spank, and then either emit heartrending cries or crawl into seclusion under a table."

"As they grow older they get more and more into the habit of making it known when they are hurt. When they reach the age of fourteen or so they are nearly as much in need of sympathy as grown men who almost without exception roam around the world hunting for somebody to tell their hard luck story to and very frequently yell long before they are hurt."

Says Self Training Is Best.

"One of the truest axioms I know," says J. O. Armour in the American Magazine, "is the business saying that 'the best trained man is the self-trained man.' It is my belief that no man developed by a formula in a business organization can ever reach the power of one who is put on his own responsibility, knowing that his advancement depends on his own brains, foresight and application."

"By this I do not mean that a business leader should let his men go along blindly. He must always give something of himself; he must teach them the overhand and crawl stroke where they knew only the breast stroke before. But in any office organization the man who has never had to stand squarely on his own feet is never in a position to march ahead."

NOTHING STANDS AS HIGH, as a remedy for every womanly ailment,

as Dr. Pierce's Favorite Prescription. It is the only medicine for women certain in its effects.

"Favorite Prescription" is an invigorating, restorative tonic, a soothing and strengthening nerve, and a complete cure for all the functions of the system, painful disorders, and chronic weaknesses peculiar to the sex.

For young girls just entering womanhood; for women at the critical time; nursing mothers; and every woman who is "run-down," tired or overworked—it is a special, safe, and certain help.

Mrs. BESSIE GREEN, of No. 522 Grant Avenue, Fort Worth, Texas, says:

"I have used Dr. Pierce's Favorite Prescription and can say it is surely a fine medicine and will do all it is claimed to do." ## IS LAND OF UNTOLD WEALTH

Mountains of the Various Countries of South America Contain Fabulous Fortunes in Minerals.

Fifteen million ounces of silver is one of South America's annual contributions to the world's pocketbook. This would make more than 17,000,000 silver dollars.

Silver to the amount of more than \$2,000,000,000 has been mined in the last 300 years from Potosi, the famous "peak of silver" in Bolivia.

The hills of South America are seamed with gold. It is found in every state.

All this gold and silver could be studded with precious stones from Colombia. Seven hundred thousand carats of them are dug out of her hills annually. Almost all the emeralds in the world come from there.

Our famous copper mines in Michigan, Montana and Arizona are surpassed in richness by those on the west coast of South America.

Enough silver is mined with the copper of one Peruvian mine to pay all the expenses of the mining, of shipping the ore over the mountains and up to North America smelters. It also pays the cost of smelting.

The Bethlehem Steel works in Pennsylvania could be kept busy for 75 years with the iron ore of one of Chile's provinces, Coquimbo.

More tin is mined in Bolivia than anywhere else in the world except the Federated Malay states, and only a few of the mines have yet been opened.

Although South America imports most of her coal, there is enough tucked away in her mountains to supply the needs of both Americas for ages to come. But there are no railways to bring it out.

Chile's nitrates fertilize the fields of the world and bring her an annual revenue in export duties of more than \$15,000,000. The value of the deposits must be reckoned in ten figures.—World Outlook.

## When Strength Begins to Go.

A medical authority states that the muscles, in common with all organs of the human body, have their periods of development and decline, our physical strength increasing up to a certain age and then decreasing. Tests of the strength of several thousand individuals have been made, and the following figures are given as the averages derived from such tests: The lifting power of a youth aged seventeen years is 250 pounds; in his twentieth year this increases to 320 pounds; and in the thirtieth and thirty-first year, respectively, it reaches its height, 365 pounds. At the expiration of the thirty-first year the strength begins to decline, very gradually at first. By the fortieth year it has decreased eight pounds, and such diminution continues at a slightly increasing rate until the fiftieth year is reached, when the figure is 330 pounds. Subsequent to this period the strength falls more and more rapidly until the weakness of old age is reached. It is found impossible to obtain trustworthy statistics after the fiftieth year.

## Pullman Washrooms.

Pullman washrooms are the only places there are where it is possible to brush your teeth and comb your hair at the same time you are pulling on your shoes. In the confusion of hastily dressing in a crowded Pullman washroom one very often is exasperated to find that he has spent five minutes lathering someone else's beard. Then again it is startling to discover that you seem to have grown bald over night. And to have the fat man whose head you were brushing dig the soap out of your ear with no gentle thumb. A Pullman washroom is excellent in many ways and if you hold a grudge against a man persuade him to dress and wash with you in the same Pullman washroom. You will find it easy to batter and bruise him horribly, though you may have to take an awful beating yourself. Never cross your legs while seated in a Pullman washroom. You may kick someone in the face.—Detroit Journal.

## UP HIS AND PIN ON WIFE'S DRESSER

Chinatti man tells how to shrivel  
up corns or calluses so they  
lift off with fingers.

Och ! ! ! ! ! This kind of rough  
feet will be heard less here in town if  
the simple advice of this Cincinnati  
man, who claims that a few drops  
of a drug called freezone when applied  
to a tender, aching corn or hardened cal-  
lus, stops soreness at once, and soon the  
corn or callus dries up and lifts right  
off without pain.

He says freezone dries immediately  
and never inflames or even irritates the  
surrounding skin. A small bottle of  
this will cost very little at any  
drug store, but will positively remove  
every hard or soft corn or callus from  
any foot. Millions of American women  
will welcome this announcement since  
the inauguration of the high heels. If  
your druggist doesn't have freezone tell  
him to order a small bottle for you.

## Pains, Dizzy Spells

Mrs. G. P. Cartwright, of  
Whitwell, Tenn., writes:  
"I suffered with bearing-  
down pains. . . The  
dizzy spells got so bad  
that when I would start to  
walk, I would just pretty  
nearly fall. Was very  
much run-down. I told  
my husband I thought  
Cardui would help me. . .  
He got me a bottle. . . It  
helped me so much that  
he got me another bottle.  
I got a whole lot better.  
The dizzy spells and the  
bearing-down pains . . .  
left me entirely."  
If you are weak and  
run-down, or suffer from  
womanly pains,

## TAKE CARDUI The Woman's Tonic

You can feel safe in giv-  
ing Cardui a thorough  
trial. It is composed of  
mild, vegetable, medi-  
cinal ingredients, recog-  
nized by standard medi-  
cal books for many years,  
as being of great value in  
the troubles from which  
only women suffer. The  
enthusiastic praise of the  
thousands of women who  
have been helped by  
Cardui in its past 40 years  
of successful use should  
assure you of its genuine

## Mother's Prayer.

The following was written by Wil-  
liam H. Koenig, a young man confined  
in the county jail at Hondo on a minor  
charge. It is published at his request.

Sitting alone in a prison cell,  
Thinking of days gone by,  
Of home and loved ones there  
And of Mother beyond the sky

Could I but recall those days  
And be a child so free  
With prattle and toy—oh, what joy  
To be again upon her knee!

To me life would be worth living,  
Sorrow would be no more;  
Mother would be near to cheer me  
And heal all my bruises sore.

Oh! could I but see my mother,  
Just a glimpse of her dear face;  
But instead I am a prisoner  
And to her bring disgrace.

Disgrace instead of honor!  
I promised her before she died  
That I would be truthful and honest  
And my name would always pride.

It's not too late for me, however,  
If I try I am sure I can  
With the help of the Almighty  
Be an honest and truthful man.

As I lay upon my small pallet  
Visions pass in the air  
Bringing me back to childhood  
And to my mother's prayer.

In my dreams a child again,  
Once more by dear mother's knee  
With my mind and heart in heaven  
While dear mother is teaching me.

"Our Father who art in heaven",  
Rings sweetly in the air;  
"Hallowed be thy name",  
Was part of Mother's prayer.

Mother's voice was soft and low,  
It sounded so sweet to me.  
For I was an innocent child again  
And knelt by Mother's knee.

Then the vision passed away,  
Silence was every where  
All had vanished like the smoke  
Through the balmy air.

Life to me now is so dreary,  
All happiness has passed away;  
I'll try all I can to be a man,  
And I will start to-day.

WILLIAM H. KOENIG.

## Bowel Complaints in India.

In a lecture at one of the Des Moines,  
Iowa, churches a missionary from India  
told of going into the interior of India,  
where he was taken sick, that he had  
a bottle of Chamberlain's Colic, Cholera  
and Diarrhoea Remedy with him and  
believed that it saved his life. This  
remedy is used successfully in India  
both as a preventive and cure for  
cholera. You may know from this  
that it can be depended upon for the  
milder forms of bowel complaint that  
occur in this Country. Obtainable ev-  
erywhere.

## Food and Feed Campaign.

Hon. Fletcher Davis, of the State  
Agricultural Department, was here to  
address the citizenship on the impor-  
tance of the production of food and feed  
crop. Owing to a lack of proper pub-  
licity, very few knew of his coming  
consequently there was no audience  
out to hear him. The subject upon  
which he would have spoken is one we  
have tried to keep before the people  
for the proposition of not only feeding  
ourselves but of feeding the allied  
peoples of Europe is incumbent upon  
us strong at this time and much more  
so in the near future. We are step-  
ping into an era when we must learn  
to practice economy, not only of com-  
modities and money, but of time as  
well. Much of the time that is being  
squandered in standing around, loiter-  
ing etc., may be made to yield a profit  
by devoting it to producing something.

## Croup, Whooping-Cough Relieved.

Children's diseases demand prepared-  
ness. When the child wakes you at  
night, gasping and strangling for  
breath, how thankful you are to have  
Dr. Bell's Pine-Tar-Honey at hand.  
This effective remedy loosens the  
mucous and permits free and natural  
breathing. Its soothing balsams heal  
the irritated membrane and arrests  
further inflammation. Pleasant to take.  
Keep Dr. Bell's Pine-Tar-Honey in the  
house for all colds and bronchial trou-  
bles. At your druggist, 25c.

Our observation is that the kind of  
man who thinks he knows how to end  
the European war can't even make  
his own baby hush crying.

## Sloan's Liniment for Rheumatism.

The pain goes so quickly after you  
apply Sloan's Liniment for rheumatic  
pains, neuralgia, toothache, lumbago,  
sprains, and it's so easy to use. It  
quickly penetrates and soothes without  
rubbing and is far cleaner and more  
effective than musky plasters or oint-  
ment.

Keep a bottle in the house and get  
prompt relief, not only from all nerve-  
pains but from bruises, strains, sprains,  
over-exercise and all external aches.  
At your druggists, 25c, 50c, and \$1.00.

Another reason why a boy is a boy  
is because sometimes you don't know  
he is a blonde until you wash his face.

## LEMONS WHITEN AND

## BEAUTIFY THE SKIN

Make this beauty lotion cheaply for  
your face, neck, arms and hands.

At the cost of a small jar of ordinary  
cold cream one can prepare a full quar-  
ter pint of the most wonderful lemon  
skin softener and complexion beautifier,  
by squeezing the juice of two fresh le-  
mons into a bottle containing three ounces  
of orchard white. Care should be taken  
to strain the juice through a fine cloth  
so no lemon pulp gets in, then this lot-  
ion will keep fresh for months. Every  
woman knows that lemon juice is used  
to bleach and remove such blemishes as  
freckles, sallowness and tan and is the  
ideal skin softener, whitener and  
beautifier.

Just try it! Get three ounces of  
orchard white at any drug store and  
two lemons from the grocer and make up  
a quarter pint of this sweetly fragrant  
lemon lotion and massage it daily into  
the face, neck, arms and hands. It is  
marvelous to smoothen rough, red hands.

## From The Boys in The Marines.

Paris Island, June 1, 1917.

Dear Editor,—As Clyde and I are  
through with our training here on this  
Island and are leaving today for Quan-  
tico, Va., for our final training under  
French officers before leaving for  
France, thought I would drop you a  
few lines to let you know what kind of  
a time we have had since we contin-  
ued in training. It has been one contin-  
uous line of drills up until the last two  
weeks and we have been on the rifle  
range that length of time. There is  
Second Class, First Class Rifleman,  
Marksmen, Sharpshooters and Expert  
Rifleman. Clyde qualified as Sharp-  
shooter and I qualified as First Class  
rifleman. It is getting pretty hot  
here now and I am glad we are leaving  
here.

John Moffield is down with the mea-  
sles and has been in the hospital for  
the last two weeks. He will not be  
with us any more as he is two weeks  
behind and any one who even gets a  
week behind is placed back in some  
other company.

Well, as it is getting late, will close  
for this time. You may still let the  
paper come to the same address as it  
will follow me until I write you again.  
I was certainly glad to hear you people  
have a good season in the ground.  
Adios for this time.

ROSS HOLLAWAY.

## Forethought.

People are learning that a little fore-  
thought often saves them a big ex-  
pense. Here is an instance: E. W.  
Archer, Caldwell, Ohio, writes: "I do  
not believe that our family has been  
without Chamberlain's Colic, Cholera  
and Diarrhoea Remedy since we com-  
menced keeping house years ago. When  
we go on an extended visit we take  
it with us." Obtainable every-  
where.

What has become of the old-fashion-  
ed thrifty boy who saved his money  
all summer to buy a coconut in the  
fall?

## Stomach Troubles and Constipation.

"I will cheerfully say that Chamber-  
lain's Tablets are the most satisfac-  
tory remedy for stomach troubles and  
constipation that I have sold in thirty-  
four years' drug store service,"  
writes S. H. Murphy, druggist, Wells-  
burg, N. Y. Obtainable everywhere.

Maybe you also have noticed that a  
man doesn't do much giggling when he  
is chewing tobacco.

## TAN-NO-MORE

The Skin Beautifier

The most scientific and most wonder-  
ful facial preparation of the modern  
age. It imparts to the skin a velvety  
softness and delicacy which is deli-  
ghtful in appearance and pleasing in  
its effect. Used during the day it is a  
protection from the Sun and Wind.  
In the evening its use assures a fault-  
less complexion. All dealers 35c,  
50c, and \$1.00.

## Sabinal Sentinel Siftings.

Miss Vera Jones, who has been book-  
keeper at the Sabinal National Bank  
for several years, was appointed  
Assistant Cashier by the Board of  
Directors last week to succeed Mr. H.  
G. Peters, who is at Leon Springs  
training for an officer in Uncle Sam's  
army. Miss Vera has won this posi-  
tion by faithful and efficient service.  
We congratulate her and the bank at  
the same time. We are informed that  
the position of assistant cashier is held  
by very few ladies in Texas.

Miss Winnie Carter, central girl  
here, has gone to D'Hanis this week  
to attend the wedding of Mr. Richard  
Price. His sister, Mrs. Tallie Miller,  
and children also attended the wed-  
ding Wednesday, May 30th.

Mr. Fritz Weber left this week for  
Fort Worth with a car load of hogs  
and from there to Kansas City with  
them looking for better prices.

Mr. Fritz Weber was here a few  
days ago buying mutton Angoras. He  
bought some from Matthews Bros. at  
\$6.00 per head. Also 40 head from J.  
H. Reavis at \$5.00 per head.

Prof. Williams will go to Hondo next  
Monday. He is one of the faculty of  
the Summer Normal to be held there.  
It will open Monday. No doubt Sabi-  
nal will be well represented.

Mr. I. C. Honegger of Houston, was  
in Sabinal Tuesday.

Mr. A. Albrecht and daughter of  
D'Hanis, came over yesterday for a  
visit at the ranch.

Miss Aggie Reilly went to Hondo Mon-  
day evening on a visit.

Prof. T. L. Williams returned Satur-  
day from a trip to Hondo.

Messrs. Fletcher Davis and Mr.  
Burkett of the State Department of  
Agriculture passed through Sabinal  
Saturday evening returning from a  
trip to Del Rio.

Rev. Bail of Yancey came up Satur-  
day and returned Monday. He filed  
his regular appointment with the  
Primitive Baptists here.

## Fletcher Davis Here.

Hon. Fletcher Davis, field agent of  
the State Department, arrived in the  
city on No. 7 Thursday of last week to  
lecture on intensive farming and con-  
servation of food supply, but as our  
forms were in print, the meeting set  
for the next day was not advertised  
and in consequence he had no audience.  
Mr. Burkett, the pecan specialist, also  
came. They were motored over town  
by F. Thumm and Mr. Davis was much  
enthusiased with our environments. He  
is also known as "Hondo Davis,"  
editor of the Hondo Herald.—Val Verde  
County Herald.

## For Liver and Stomach Trouble.

A reliable remedy for constipation,  
biliousness and all their train of ills, is  
Po-Do-Lax. It is harmless, never  
failing, natural in effect and pleasant  
to take. No griping pains, no bad  
taste, no bad after-effects. Po-Do-Lax  
is nature's remedy, it makes children  
active, clears the sluggish mind and  
changes to cheerfulness, the grown-  
ups that torpid liver has made irritable  
and lowspirited. A large bottle costs  
only 50c, at your druggist.

## Conserve Space.

For houses of limited room a com-  
bined kitchen sink and bathtub has  
been invented, the former being  
mounted on top of a cabinet that is  
moved out of the way when the lat-  
ter is used, the same faucets and out-  
let serving both.

## Hadn't Changed Much.

"Dad, what was the labor of Sis-  
phus?" "Sisyphus rolled a stone up a  
hill and as fast as he rolled it up it  
rolled down again. It was a mytho-  
logical episode. Nothing like that to-  
day." "Oh, I don't know," interposed  
ma. "Washing dishes is just like that."

## Problem of the Desert.

the clearness of the water is wonder-  
ful. Objects may be seen at a depth  
of twenty-five to thirty fathoms.

## To the Public.

"I have been using Chamberlain's  
Tablets for indigestion for the past six  
months, and it affords me pleasure to  
say I have never used a remedy that  
did me so much good."—Mrs. C. Riley,  
Illion, N. Y. Chamberlain's Tablets  
are obtainable everywhere.

# INDIGESTION.

If you are ever troubled with indi-  
gestion, Chamberlain's Tablets will do  
you good. They strengthen the stom-  
ach and enable it to perform its func-  
tions naturally. There are hundreds  
of people who have been restored to  
health and happiness by the use of  
Chamberlain's Tablets. When you feel  
dull and languid after eating you may  
know that your digestion is faulty, un-  
less you have eaten more than you

should. Belching, sour stomach and  
bloating are symptoms of indigestion  
and are relieved by taking Cham-  
berlain's Tablets as directed. Indigestion  
is usually accompanied by constipa-  
tion and is aggravated by it. Cham-  
berlain's Tablets cause a gentle move-  
ment of the bowels, relieving the con-  
stipated condition. Chamberlain's  
Tablets are also most excellent for bil-  
iousness. Sold everywhere at 25c.

# CALOMEL DYNAMITES YOUR LIVER! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Starts Your Liver  
Better Than Calomel and You Don't  
Lose a Day's Work

Live up your sluggish liver! Feel  
fine and cheerful; make your work a  
pleasure; be vigorous and full of ambi-  
tion. But take no nasty, dangerous  
calomel because it makes you sick and  
you may lose a day's work.

Calomel is mercury or quicksilver  
which causes necrosis of the bones.  
Calomel crashes into your bile like  
dynamite, breaking it up. That's when  
you feel that awful nausea and cramping.  
Listen to me! If you want to enjoy  
the nicest, gentlest liver and bowel  
cleansing you ever experienced just take  
a spoonful of harmless Dodson's Liver

Tone tonight. Your druggist or dealer  
sells you a 50 cent bottle of Dodson's  
Liver Tone under my personal money-  
back guarantee that each spoonful will  
clean your sluggish liver better than a  
dose of nasty calomel and that it won't  
make you sick.

Dodson's Liver Tone is real liver  
medicine. You'll know it next morning  
because you will wake up feeling fine,  
your liver will be working; headache  
and dizziness gone; stomach will be  
sweet and bowels regular.

Dodson's Liver Tone is entirely veg-  
etable, therefore harmless and can not  
salivate. Give it to your children.  
Millions of people are using Dodson's  
Liver Tone instead of dangerous calomel  
now. Your druggist will tell you that  
the sale of Calomel is almost stopped  
entirely here.

 A young soldier is stopping at the home of Mr. and Mrs. W. H. Burgin at Yancey. While this young gentleman did not register in the selective draft Tuesday he is by no means a slacker, as he only made his advent into the Burgin home May 24, and will not be eligible to don a khaki uniform for some twenty-odd years yet. He is a husky youngster and tipped the beam at ten pounds.  
 Mrs. Callie Martin and Miss Maude Allen of the Southwestern Telephone Exchange have again resumed their duties after enjoying their annual vacation. These "hello" girls this year took a very sane vacation. Instead of going away to some city they turned their faces toward the "hill country" where they quietly and restfully passed their respite from the moil of the exacting duties in the exchange office.  
 J. C. Biediger of the Lacoste Ledger was here Tuesday and paid this office a fraternal call. Mr. Biediger brought the registration cards, fifty in number that were issued in Lacoste Tuesday. He says that quite a number of the Mexican people of the Lacoste precinct refused to get stamped but on the contrary took out their registration cards. Mr. Biediger says that despite the irrigation system in his section a good rain would be welcomed by the people over there.

The Hondo Summer Normal opened Monday with a very fair attendance, and immediately got down to business. Students have been coming in from surrounding towns and neighborhoods throughout the week, and it is expected quite an addition will be added to the student body at the opening of its second week next Monday.

We regret to learn that Mr. R. W. Heilig has tendered his resignation as cashier of the D'Hanis State Bank and will retire from that institution this month. Mr. Heilig is an experienced banker and his superior knowledge has been worth a great deal to the little bank. He will be succeeded as cashier by Mr. J. B. Nester, a young man of sterling worth, who was reared at D'Hanis and who, we feel sure, will make good in his very responsible position.

Persistency usually brings its reward. For the past four years a big, bold, bad coyote has persisted in feeding upon Mr. F. F. Muennink's poultry without so much as "by your leave." During all these years he has waxed fat on stolen flesh and defied all the wiles of man to bring him to an accounting for all his nocturnal pifflings. But, alas, made too bold by repeated successes he made one step over the bounds of discretion and "put his foot in it"! And once more we are reminded that pride goeth before a fall! The "it" in this instance was a great, powerful steel-trap. No doubt as the strong jaws of the trap closed on his bruised and bleeding foot his coyoteship repented him of his many sins and vainly reproached himself for his over-stepping pride. But it was too late. Mr. Muennink's four years chase had been rewarded. Mr. Coyote paid the penalty of his many sins, and now there is peace in the poultry yard with nothing worse than dim recollections of a once gray, hungry marauder to disturb the dreams of its feathered denizens.

Rev. A. Falkenberg, the Lutheran Pastor of this place, attended a meeting of the 1st District Lutheran Synod in San Antonio this week.

Mrs. Joe Nester and daughters, Mrs. Pete Koch and Miss Hulda Nester of D'Hanis spent Thursday here as the guests of Mrs. Eugen Huesser.

## Stringfellow Gains Twenty-Two Pounds.

Railroad Man Says Tanlac Is The Only Thing That Ever Helped Him After Suffering 4 Years.

"If the people of this town only knew what Tanlac had done for me you would sell a thousand bottles tomorrow," said Tom Stringfellow, a well known employee of the Southern Railway, who lives at 126 East Ninth Street, Annison, Ala. Mr. Stringfellow is well known in railway circles and is on the Atlanta and Birmingham division.

"I suffered from stomach trouble and indigestion for four years," continued Mr. Stringfellow, "and got so I couldn't eat hardly anything. I fell off until I only weighed one hundred nineteen pounds and finally got so weak and run-down I was on the point of having to resign my position. To tell you the truth I just felt like life was not worth living because I just seemed to be getting worse all the time and nothing seemed to do me any good.

"I would have awful pains in my back and kidneys and could hardly sleep. Two hours each night would be about all the sleep I would get. Most always after eating I would have gas on my stomach and my heart would palpitate. I would get weak in my limbs and have dizzy spells and would have spots in front of my eyes.

"About a month ago I began reading about Tanlac, and heard the railroad men talking about it. Several of my friends had taken the medicine and said it was a fine thing for stomach trouble, so I decided to give it a trial. The first bottle helped me so much I kept on taking it and have just finished my fifth bottle. When I weighed the other day I kicked the beam at one hundred forty-one pounds, and was so surprised I turned around to see if some one was not standing on the scales. Yes, sir, that's a fact, I had actually gained twenty-two pounds and feel like a well man again for the first time in four years.

"Tanlac helped me right from the start, and before I had finished taking the second bottle I got so I would eat and sleep and work as good as anybody. That's what the medicine did for me and everybody who knows me will tell you the same thing. Why, I can sleep good, too, and feel just fine in every way. Speaking of eating, my grocery bills have gone up to almost double.

"Just to show you what I think of the medicine I bought a dozen bottles today in order to always have a supply on hand. I wouldn't be without it for anything in the world."

Tanlac is sold in Hondo by W. H. Windrow, in Devine by Lion Drug Store in D'Hanis by Louis Carle, and in LaCoste by Dickey Drug Co.

### BUILD UP YOUR STRENGTH

Get your digestion in order, remove all irritation, dispel all stagnation. Put yourself in shape to enjoy the summer with a good tonic.

### PERUNA INVIGORATES

It restores the perfection of digestion and removes the inflamed conditions (catarrh) that make you weak. It freshens the blood, steadies the nerves, and supplies just what you need to enter the hot season with confidence.

Peruna is a real tonic, with especial efficacy in catarrhal conditions.

Liquid or tablet form—whichever is most convenient—will safeguard your health.

#### Bridge in Scripture.

The only mention of a bridge in the canonical Scriptures is indirectly in the principalty of Geshur, a district to the northeast of the sea of Galilee. At this place a bridge is said to exist which is called by the Arabs "the Bridge of the Sons of Jacob." The Romans are credited with being the first constructors of arched bridges over streams.

#### Grabbed by Old Ocean.

An average of 95 tons of soil and loose rock is washed into the ocean every year from every square mile of the United States. This estimate does not include the great basin. The immensity of this contribution may be better comprehended when it is realized that the surface of this country covers 8,088,500 square miles.

One more thing we want to know is when a man borrows street car fare from his wife, is it a liberty loan.

#### Symptoms.

Some people take more pride in their symptoms than they do in their children. If you are fortunate enough to acquire or inherit a number of alarming symptoms, you may be able to spend a happy lifetime being miserable. There is something peculiarly charming and piquant about one who complains about his ailments. How he is welcomed into any little social throng! How a room brightens at his appearance! Nervous disorders are perhaps the most enviable endowments. Have you some? Persons of this description are charming conversationalists. They are never at a loss for a remark. They can talk of their complaints at any length. Sick headaches, loss of appetite, weak back, dizzy spells are only a few of their favorite topics. In talking to persons of this sort it is pardonable to say "I'd rather you'd die of your symptoms than talk of them."

#### No Use Wasting Time.

They were dining off fowl in a restaurant. "You see," he explained, as he showed her the wishbone, "you take hold here. Then we must both make a wish and pull, and when it breaks, the one who has the biggest part of it will have his or her wish granted."

"But I don't know what to wish for," she protested.

"Oh, you can think of something," he said.

"No, I can't," she replied. "I can't think of anything I want very much."

"Well, I'll wish for you?" he exclaimed.

"Will you, really?" she asked.

"Yes."

"Well, then, there's no use fooling with the old wishbone," she interrupted with a glad smile; "you can have me."

**Drives Out Malaria, Builds Up System**  
The Old Standard general strengthening tonic, GROVE'S TASTELSS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

Another good thing about owning a government bond is that the people you owe will be willing to accept it at par.

#### Preventing Milk From Boiling Over.

Among the various devices which are intended to prevent milk from boiling over we noticed one which solves the problem in a very simple way, says the Scientific American. It consists of a straight tube of say two or three inches in diameter at the top and expanding somewhat toward the bottom, where it is provided with a flaring and cup-shaped end of rather large diameter, the whole being somewhat of trumpet shape. Out of the lower part are cut, say, four suitable openings, and we set the device upright in the vessel with the small end just out of the liquid. Should the milk tend to boil violently this action commences at the bottom, and the liquid is forced up the tube, then falls upon the surface again, so that the boiling action will continue in this way and the milk has no tendency to leave the vessel.

#### Why Fish Will Fall Upward.

The deep-sea fish are subject to a pressure internally, by gases, and externally of over two tons to the square inch, and under this pressure they are quite solid. When these fish are brought to the surface in nets their bodies become puffy, their bones loose and their eyes start out of their heads; very often they burst. This is because the pressure is released.

When these fish of the deep sea chase their prey or rise for some reason high above the ocean bed, the gases of their swimming bladders expand and they become light. The fish whose muscles are not strong enough to take it down deeper into the ocean expands more and more until it rises upward to the surface and is killed, so that it really "falls upward."

#### Eagle Symbol of Power.

From ancient times the eagle, as the king of birds, has been looked upon as the symbol of power. The American eagle is the native bird and was first adopted on the seal of the United States on June 20, 1782, against the bitter opposition of Franklin. This patriot looked up to it as a Caesarian emblem and wanted to know what was the matter with the wild turkey, as being more distinctly American. Nevertheless the eagle was accepted, not only on the seal, but on the first coin issued by the United States in 1795, and on a majority of the coins since.

#### Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well-known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

#### Words From Home.

##### Statements That May Be Investigated. Testimony of Hondo Citizens.

When a Hondo citizen comes to the front, telling his friends and neighbors of his experience, you can rely on his sincerity. The statements of people residing in far away places do not command your confidence. Home endorsement is the kind that backs Doan's Kidney Pills. Such testimony is convincing. Investigation proves it true. Below is a statement of a Hondo resident. No stronger proof of merit can be had.

Thos. McCall, carpenter, Hondo, says: "A short time ago I came down with an attack of kidney trouble. I had a severe backache so that I could hardly stoop or lift anything. My back pained all the time and made it difficult for me to do my work. Doan's Kidney Pills, procured at Windrow's Drug Store, helped me right away and two boxes removed the trouble. I am glad to recommend Doan's Kidney Pills to others suffering from disordered kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McCall had. Foster-Milburn Co., Props., Buffalo, N. Y.

#### SMOKED HIS CIGAR BY PROXY

Bismarck Gave Cherished "Weed" to Wounded Soldier and Enjoyed Watching Man's Contentment.

With all his brusqueness and even, at times, brutality, Bismarck, says Frederick Marvin, had much of the "live-and-let-live" philosophy, and it humanized him so that men loved him and willingly followed after him. The story of the last cigar at Koeniggratz illustrates what has been said, says the Yorkshire (Eng.) Post.

"The value of a good cigar," said Bismarck, as he proceeded to light an excellent Havana, "is best understood when it is the last you possess and there is no chance of getting another. At Koeniggratz I had only one cigar left in my pocket, which I carefully guarded during the whole of the battle, as a miser does his treasure. I did not feel justified in using it."

"I pointed in glowing colors in my mind the happy hour when I should enjoy it after the victory. But I miscalculated my chances. And what was the cause of my miscalculations? A poor dragoon. He lay helpless, with both arms crushed, asking for something to refresh him. I felt in my pockets and found only gold, and that would be of no use to him. But stay, I had still my treasured cigar! I lighted this for him and placed it between his teeth. You should have seen the poor fellow's grateful smile! I never enjoyed a cigar so much as that one which I did not smoke."

#### MARCH FIRST MONTH OF YEAR

Was So Placed in Roman Calendar and Continued Until Comparatively Recent Times.

March was the first month in the Roman year, and since the Romans were a warlike people, they honored Mars, the god of war, by naming the first month Martius. It was the first month in many parts of Europe until a comparatively recent date, even in England the year beginning March 25 until 1752.

The Saxons called it Lenet Monath—length month—because in March, the days become noticeably longer, and this was the origin of the name "Lent."

The English have a proverb, "A peck of March dust is worth a king's ransom," and another, "A dry March never begs its bread," which express their faith in the belief that a dry March means a prosperous year. This is explained by the fact that they do most of their planting in March, and unless the soil is dry, planting often is delayed.

It's different in America. In the middle West more rain falls in March than in April ordinarily and almost as much in March as in May.

Almost universally in the North Temperate zone, March is regarded as the windy month. Normally it marks the transition from winter to spring.

## WHAT IS LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA A DIGESTIVE LAXATIVE CATHARTIC AND LIVER TONIC

LAX-FOS is not a Secret or Patent Medicine but is composed of the following old-fashioned roots and herbs:

CASCARA BARK  
BLUE FLAG ROOT  
RHUBARB ROOT  
BLACK ROOT  
MAY APPLE ROOT  
SENNA LEAVES  
AND PEPSIN

In LAX-FOS the CASCARA is improved by the addition of these digestive ingredients making it better than ordinary CASCARA, and thus the combination acts not only as a stimulating laxative and cathartic but also as a digestive and liver tonic. Syrup laxatives are weak, but LAX-FOS combines strength with palatable, aromatic taste and does not gripe or disturb the stomach. One bottle will prove LAX-FOS is invaluable for Constipation, Indigestion or Torpid Liver. Price 50c.

#### Beating Nature.

Nature requires about six weeks to make a leaf; but a good imitation can be made in a few seconds. By using a clamp of ingenious construction, with bronze and plaster molds, a naturalist can make artificial foliage of any description.

#### Yellow Pine in California.

The yellow pine in California ranges from 100 feet above sea level to 7,000 feet, and its variety, the Jeffrey pine, is found at 9,000 feet, the most remarkable range of any species of pine in the world.

#### The Prolific Fly.

One housefly will produce 20,000 larvae, which will soon bring into existence 20,000 more, and these will multiply to over 8,000,000,000 in about five months.

#### Praise Him.

Only praise is due the young man, who ostentatiously displays his shanks in a street car. He wants you to know how carefully his mother launders his silk socks.

### PUTTING ONE OVER ON COW

Japanese Solve Problem by Extensive Use of Artificial Milk Derived From Soy Bean.

The milk problem is by way of being solved in Japan, where cows are scarce, by an extensive use of artificial milk derived from the soy bean. First, the Japanese soak the beans, then boil them until the liquid turns white, when they add sugar and phosphate of potash. The boiling is resumed until a fluid results very similar in consistency and appearance to ordinary condensed milk. When water is added soy milk is hardly to be distinguished from fresh cow's milk.

In composition also the artificial milk is almost like genuine milk. Its proteins, fats and sugars are in very nearly the same proportion, although, of course, they are wholly vegetable in origin.

Whether the substitute is equal to real cow's milk as a form of nourishment is not quite clear, for much of the value of milk as a food comes from the enzymes or vitamins it contains. The Japanese, however, declare that it serves all the purposes of cow's milk, and that it has the advantage of being less liable to infection when properly and carefully manufactured.—Youth's Companion.

#### First of Printed Books.

Although neither Caxton nor other of early printers included any part of the holy scriptures among their productions, it is a noteworthy fact that the Bible was the first printed book in the world, being, moreover, the masterpiece of the illustrious inventor of the art of printing, Johann Gensfleisch von Sulzbach, surnamed Zum Gutenberg, having associated himself with Johann Faust of Mentz, produced with his assistance, in 1450-55 (the book is undated) the famous folio Latin Bible commonly known as the Mazarin Bible, the first copy having been discovered in the library of Cardinal Mazarin. The expense of this production was so great that Gutenberg was unable to repay his partner the money that he had advanced, and was obliged to resign to him the whole of his printing establishment and plant, with which Faust, in partnership with Peter Schoeffer, printed the equally famous Mentz Psalter in 1457. By the testimony of auction prices these are the two most valuable books in the world.

#### Bleeding Useful at Times.

For ages one of the customs of Chinese physicians has been to thrust fine needles into the body to let out poisons and various maladies and it appears that bleeding in this way is often really useful. After long observation in China Dr. James Cantile reports himself so much impressed with the results that he has adopted the procedure himself for certain cases. Needling seems to lessen the tension in the inflamed part and to relieve neuralgic and rheumatic pains, swelling and stiffness from sprains and fractures, and especially the indefinite hip pains usually called sciatica.

#### Sulphur and Rheumatism.

One of England's most distinguished physicians has just reported a valuable piece of information that he learned from a gossip old lady who was addicted to the habit of giving medical advice to her acquaintances, says the Los Angeles Times. She gave some of this advice to one of the learned physician's patients who was suffering from rheumatism in the hands, suggesting that the patient "put sulphur in her stockings." The patient took the advice and the rheumatism in the hands disappeared; also a silver ornament worn on the patient's wrist turned black.

#### Within Hospitality's Limits.

"Willie, you are going out to dinner. You may ask for a second piece of cake if you really want it, but there's one thing I wish you to remember."  
"Yep, ma."  
"Whatever you do, don't ask for a second helping of potatoes."

### A Lady of the Western Plains Makes Her Screen Debut

Anna Kromann, New American Mutual Star, Is Daring Horsewoman

Anna Kromann, one of the most splendid horsewomen of the hard riding west and as pretty as she is capable, recently became a star of the famous "Flying A" company in the Mutual orbit. Her debut on the screen occurs in "The Truth of Fiction," in which she plays the part of May Burton.

In this role Miss Kromann puts just the right amount of willfulness, and she has ample opportunity to display her horsemanship as only this very charming new Mutual star can. On Midnight, her Kentucky thoroughbred, Miss Kromann gives an exhibition of both rough riding and haute école that is fairly dazzling.

She is of the fair American type, with dark lashed gray eyes, most expressive under the broad sweep of her sombrero brim. As the picture shows, Miss Kromann has a keen sense of costume value. Her tan corduroy skirt is topped by a picturesque belt of Mexican embossed leather. The hat is banded with Indian bead work. Silvered gauntlets incase her slender wrists, and her riding boots are high mannish cut. An ornate saddle and bridle are in keeping.

Miss Kromann thoroughly enjoys life. The work that she does so keeps her out in her beloved open, especially in the saddle, and the realization of what she long has wanted to do. Miss Kromann is beautiful Santa Barbara, where the American-Mutual studios are, is a place she wants to live, and she finds studio life completely congenial.
